- Recognised as the industry standard for automatic bailers.
- Ingenious design uses venturi effect to produce suction and maximise water transfer – simply open the bailer when the boat is sailing at adequate speed to drain. Close when stationary or at low speed.
- Available in outside mount and inside mount models.
- Inside mount models have a plastic grate to prevent lines being sucked out.
- Robust stainless steel construction, provides long trouble free service life.
- Bailer and service kit installation instructions are available in the SUPPORT section of the Ronstan website.
- Effective means of automatic bailing for dinghies and small one design keelboats.
- Install on port and starboard sides for optimum bailing on both tacks.
- RA435200 Super Mini Special bailer is designed for racing dinghies where the bailer is operated from a hiking position.
- Stainless steel construction.
- Rubber gaskets.
